INTERNSHIP REPORT

NAME: AKHIL KUMAR

DEPARTMENT: Computer Science &

Engineering

YEAR: 2nd Year

Project Overview

During the internship at MLSA KIET, I had focused on developing skills in full-stack web development. The primary projects completed during this period were:

1. Calculator Application

 Developed a responsive web-based calculator that performs basic arithmetic operations.

- Utilized HTML, CSS, and JavaScript for the front-end.
- JavaScript functions.

2. To-Do List Application

- Created a functional to-do list application to manage tasks efficiently.
- Integrated features such as task addition, deletion, and status updates.
- Employed local storage to retain user data between sessions.

Skills Acquired

- Proficiency in front-end technologies (HTML, CSS, JavaScript).
- Understanding of back-end frameworks and database integration.
- Experience in version control using Git.

Enhanced problem-solving skills and coding efficiency.

Conclusion

This internship provided me valuable hands-on experience in full-stack web development. The projects completed not only reinforced theoretical knowledge but also equipped him with practical skills essential for a career in web development.
